The amendments to the claims address issues of consistency and/or clarification. None of the amendments change the scope of the claims as described in the Notice of Allowance.

OATH/DECLARATION

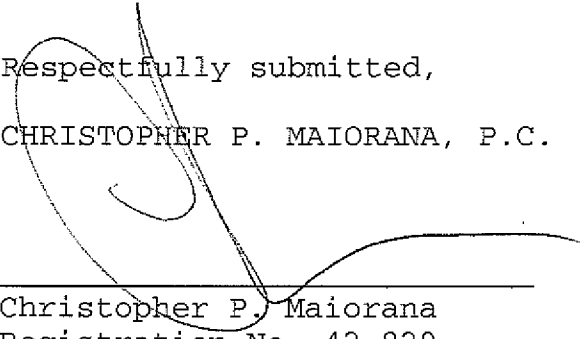

The requirement for a new oath or declaration is respectfully traversed. The declaration that was filed in the present application is consistent with the requirements of 37 C.F.R. §1.56. While the oath filed in the present application says "material to the examination". Since the examination determines patentability, such language is still consistent with the requirement presented by the Examiner, specifically "material to patentability". Therefore, the requirement for a new oath/declaration should be withdrawn. Alternately, a waiver of the minor perceived defect is requested.

The Examiner is respectfully invited to call the Applicant's representative should it be deemed beneficial to further advance prosecution of the application.
